## **AIRE-O<sub>2</sub>® Aspirator Aerator**

### **The Trusted Industry Workhorse Since 1974**

The AIRE-O<sub>2</sub>® aerator is a high quality, minimal maintenance aspirator aerator with superior performance and a proven record. Aeration Industries International, Inc. developed and introduced the innovative, patented aspirator aeration technology in 1974. The aerator creates a high velocity stream of oxygen that keeps solids in suspension and in contact with the plume of fine bubbles. A series of strategically placed units creates “flow linkage,” providing whole basin aeration and circulation that prevents short-circuiting. More than 50,000 AIRE-O<sub>2</sub>® aerators have been installed throughout the U.S. and over 85 countries worldwide making it the standard by which durability and quality are measured.

### **AIRE-O<sub>2</sub>® Aspirator Aerator Benefits:**

- Increased mixing and fine bubble oxygen dispersion.
- Low capital cost investment.
- Large range of Hp sizes adaptable to numerous applications, processes and configurations.
- Adjustable angle of entry allows for shallow to deep applications.
- Ease of installation, portability and minimal maintenance.
- Winter treatment performance efficiency.
- No aerosols or odors, “community friendly.”
- Ideal for retrofits and upgrades.
- Three (3) Year Warranty.

Available in 2-100 Hp (1.5-75 kW) sizes in worldwide voltage, phase, Hz combinations

#### **20 years and going strong!**

*“The 8 aerators allow for a turn down in oxygen transfer capability while assuring complete mixing of the ditch under all load conditions. We like the AIRE-O<sub>2</sub> system. Maintenance is easy.”*

Madison WWTP, SD

AIRE-O<sub>2</sub> aerators pictured mounted on floats. Bridge mounting shown above.

# AIRE-O<sub>2</sub>® Aspirator Aerator

## Mounting Options:

For anchor mounting details please contact the factory.

**Bridge Mount**

**Float Mount**

**Wall Mount**

## 60 / 50 Hz Weights & Measures for the AIRE-O<sub>2</sub>® Aspirator Aerator:

NEMA AND IEC Motors Available

HP	kw	Dimensions		Motor Frame Size	60 hz Motor RPM	Motor 50 hz FLA@ 460V	50 hz Motor RPM	Motor 60 hz FLA@ 380V	Ship weight lbs. (kg)	Pontoon System Avail.	Pontoon System
