HarISA project
25. veljače · 🌐

•••

After a long time of online meetings, it is time to get together again. This time we will meet in Durres on March 28. The meeting will be attended by the leaders of work packages 2, 3, 4, 5 and 8 to reach important agreements on the submission of programs for accreditation of study programs, to establish final curricula for each subject in each subgroup, to agree on diagnostic and training hubs, to monitor mobility and to agree on a strategy for the completion of the project.

Conclusions:

✓ We need to draw attention to project through social media after the project ends so that when the program is fully accredited, we have interested students - to that end, we need to post more scientific contents on Facebook and Instagram.

Thank you for your attention !!!
