

Experts in herbal pet care

Nothing beats having a healthy, happy dog. We know that because we love dogs as much as you do. For almost 70 years we've been breeding, working and showing dogs, and applying our knowledge of herbal medicine to their health and nutritional needs. We're now in our third generation at Dorwest, where our insights have made us the UK's leading provider of canine and feline herbal treatments – and the only manufacturer of herbal medicines authorised by the Veterinary Medicines Directorate.

In more than 20 countries around the world we're helping dog and cat owners keep their pets healthy and content. They come to us for herbal treatments that work in harmony with their dogs – the young and the old...glossy show dogs and lovable crossbreeds...active, outdoors types and contented, fireside stay-at-homes.

Dog lovers with pharmaceutical standards

A commitment to medicinal rigour underpins everything we do. We prepare our treatments to pharmaceutical standards using active ingredients taken from the whole plant. No second-stage extracts for us: ours come directly from the leaves, stems, roots and first pressings of oil – and only from herbs that meet our own stringent quality standards. The result is a comprehensive range of herbal veterinary medicines, herbal dietary supplements and homoeopathic remedies that help keep your dog or cat's life in balance.

Away from the lab and the white coats, we're typical dog lovers – keen to chat with fellow dog owners and delighted to offer advice on anything from supplements for an active lifestyle to treatments for travel sickness, phobias or ageing joints. We love being part of that great dog-owning community, and feel privileged to be able to share our expertise with fellow dog enthusiasts.

Should you require further information on other leaflets in our range or require advice either:

Ask at your local stockist to speak to the Dorwest trained member of staff.

Call Dorwest direct on 01308 897272 to speak to an expert advisor (9am – 4pm Monday to Friday)

Everyday health

Your guide to maintaining your dog's everyday health

Everyday Essentials

One of the most common questions our advisors get asked is ‘What can I give my dog to keep him (or her!) healthy?’. Much like with our own health, prevention really is better than cure. So owners want to ensure they do everything possible for their dog to keep them healthy rather than wait until perhaps their health is not quite as good and try and seek a solution.

Herbal supplements and medicines are perfect to use as they are gentle on the system and by using high quality authenticated herbs they are full of nutrients which are of benefit to the body. Dogs have a shorter digestive tract than humans, so therefore have a smaller time period in which to absorb the goodness from the herbs, it really is essential to use only the best quality supplements.

We have outlined our top products for everyday health, if you need any help selecting what is right for your companion please do get in touch.

Essentials for a healthy life must of course be regular exercise, a good quality diet and of course love and attention, these all ensure that tail keeps wagging!

Remember we are not vets and do not diagnose. You should always consult a vet if you are concerned about your pets health.

“THANK YOU DORWEST”

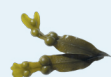

Our Lurcher Robbie and Shih Tzu/J.Russell Lola, both had their boosters and health checks recently. Our vet said what wonderful condition both were in, especially Robbie who is 12 years old now.

Goes to show what your products have and are doing for them. I’m sure that Dorwest has saved us a few hefty vet bills due to your daily herbal treatments.

Mrs Sollé, Kent

Keepers Mix®

This wonderful and unique formulation keeps dogs and cats in tip-top condition by giving their diet a super-boost. Balance is the key to this potent herbal blend which contains natural antioxidants, vitamins, minerals, chlorophyll, fibres and complex bioactive compounds. Keepers Mix® is a classic that just cannot be beaten!

Kelp seaweed

Rosemary

Alfalfa

Clivers

Nettle

Celery seed

Wild yam

Psyllium husk

Easy-Green®

This supplement offers all the benefits of the nutrition found in three ‘super green plants’ (Parsley, watercress and spinach) in an easy to give powder. Just add it to the normal food to boost levels of iron, vitamin C, chlorophyll, calcium and magnesium and bio-active antioxidants. The quick drying process and fine milling retains maximum nutrients and makes it easily digestible, perfect with natural feeding regimes.

Spinach

Parsley

Watercress

Omega Star®

A naturally balanced blend of plant omega oils containing superior natural ingredients. UK grown cold pressed Flax Seed, Blackcurrant and Borage oil provide balanced levels of Omega 3 & 6. This is important to regulate skin renewal, moisturise and nourish the skin moisture barrier keeping scurfiness under control and helps to restore coat shine and supports quality growth. No wonder it already has a ‘Star’ following!

Blackcurrant seed oil

Borage seed oil (Starflower)

Flax seed oil

Natural Vitamin E

Garlic & Fenugreek Tablets

Given regularly at the maintenance dose, this licensed medicine increases resistance to infections by supporting the immune system and also promotes everyday health. The active ingredients contain natural anti-inflammatory, antibiotic, antiseptic properties.

Garlic and Fenugreek Tablets AVM-GSL Active ingredients: Powdered Fenugreek 16mg; Essential Oil of Garlic 0.22mg. Further information is available on request
