S & C – GENERAL

Glands

Bones

Skin & Exterior body

KENT : GENERALITIES

- Chapter starting with TIME followed by alphabetical order
- PAIN starts with the APPEARANCE OF PAIN followed by locations followed by type of pains in alphabetical order
 - Appear gradually
 - Disappear gradually

- Physical Generals
- All < & >
- PATHOLOGICAL RUBRICS
- Bodily tendencies
- General symptoms – chorea, convulsions...

- Pain come suddenly & disappear gradually
 - Gen, Pain...
- Painlessness of complaints usually painful
 - Gen., Painlessness – *hell*, **op**, **stram**
- Pain vanishing on **touch** & appear else where
 - Gen, Touch

- Anaemia
- Leukaemia
- Chlorosis
- Cyanosis
- Emaciation Children (marasmus)
- Obesity
- Burns
 - GANGRENE - Skin
- Catalepsy
 - Joy from - **coff**
- Chorea
- Convulsions
- Dropsy
- Glanders
 - Anthrax - Extremities
- Haemorrhage , blood does not coagulate
 - Haemophilia
- Indurations
 - knotty like ropes = Hodgkin's disease
 - nodes under the skin = Lipoma (direct rubric in NOSE)
- Measles after
- Nursing children
 - Nursing mothers
 - Loss of vital fluids
- Onanism from

- Paralysis agitans
 - = Parkinsonism
 - Mania-a-potu = Delirium Tremens (MIND, Mania-a-potu)
 - Noli me tangre = Rodent Ulcer (FACE, cancer, Noli me tangre on nose)
- Sydenhams chorea
 - Gen, Chorea, rheumatic
- Polypus
- Pulse, slower than the beat of heart
 - Atrial Fibrillation
 - Resp, IRREGULAR - slow, at another time
hurried; at one time = Cheyne Stokes Respiration
- Scurvy
 - Scorbutic Gums???
- Septicemia

- Apoplexy = CVA
- Brittle bones
 - Osteogenesis imperfecta
- Softening of bone
 - osteomalacia
- Necrosis of bone
- Inflammation, bone
 - Osteomyelitis
- Slow repair of broken bones
 - Gen, Slow
- Slow healing of wounds
 - Gen, Wound, Slow heal to

POISONING

- Arsenical poisoning
- China
- Quinine
- Iron after abuse of
- Lead chronic effect of
- Mercury abuse of
- Silica over use of
- Vaccination after
- Rubric for head load workers
 - Gen, Carrying
 - Back – alum
 - Head - calc

Food & Drinks

- General < & >
- Desires for food - Stomach
- Aversion for food - Stomach
- Disordered stomach – stomach
- Licks cow dung, mud, saliva
 - MIND, Feces, licks up cow dung – merc.
 - Swallows his own – verat
 - Passed on floor - cupr
- Smoking when breaking off = Tobacco.

- **CANCEROUS AFFECTIONS**
 - = Cancerous cachexia
 - ENCEPHALOMA
 - EPITHELIOMA
 - Fungus hematodes
 - Lupus
 - NOMA
 - Cancrum oris – mouth, stomacace
 - Rodent Ulcer??
 - Fungus Oculi??
 - Scirrhus
- ULCERS, Cancerous

- GEN, TUMOR
 - Cheloid – sil
 - Fibroid
 - Atheroma
 - Neuroma
 - Sarcoma
 - steatoma
- Thrombosis
- Varicose vein
 - VARICES - EXTREMITIES

- Anorexia nervosa
 - Mind, Eat refuses to
 - Gen, Emaciation insanity with
- Bulimia - STOMACH - APPETITE, - ravenous, canine, excessive
- Body fat but leg thin
 - Gen, Obesity
- Stoop shouldered person
 - Gen, Stoop shouldered
- LEAN PEOPLE

- Complaints < on extremes of temp
 - Gen, Cold, heat and cold.
- Complaints on change of weather
 - Gen, Change, weather aggr.
 - Position, temperature
- Sliding down in bed due to paralysis
 - Weakness, paralysis

- Caged as if with wires
 - Gen, Caged; Constriction as if caged.
- Easily broken sensation of body
 - Gen, **Frail**
- Blows, falls, bruise injures
- Smoking when breaking off = Tobacco.
- Contradictory symptoms
 - Gen, Contradictory and **alternating** states
- Cold & stiff on approaching a **stove**
 - Gen, **Warm**

- Febrile fits
 - Gen, Convulsions, heat during the
- Feels better before chill
 - Gen, Chill – psor.
- Feel as if she could feel every muscle & fibers of her Rt. side
 - Gen, Feels
- Sensation of good strength
 - Gen, Strength
- Intention tremor
 - Gen, Trembling, something is to be done when
 - Extr, Trembling

- **Moon phase**
 - Gen, Periodicity 14th day
- **Moon light**
 - Gen, Moon light
 - Mind, Sentimental mood in
 - Vision, Moon light >
 - Eye, Moon light

- Must sit up with knees drawn up rest her head & arms upon knee
 - Gen, Sitting
- Desire to lie down after eating
 - Gen, Lie down, eating after
- Will not lie down sit up in bed = Lie.

- Premature old age
 - Gen, Old age premature
 - Premature greying of hair???
- Physical anxiety
 - Gen, Anxiety general physical

- Recurrent abscess : Gen, Abscess, recurrent
- Recurrent attack of cold : Gen, Cold, tendency to take
- Recurrent attack of fever – FEVER, relapsing
- Recurrent styes - EYE
- Recurrent tonsillitis - THROAT INTERNAL - INFLAMMATION
- Recurrent croup – L&T

- Sunset till sunrise
 - Gen, Evening sunset till sunrise
- Every other evening = Evening
- Twilight = Evening
- Seashore >
 - Gen, Air, seashore >
- Coition during <
- Sexual excitement <
 - Generalities, sexual excitement,
- Weakness after fever
 - Gen, Weakness, fever after

DISEASES

- **Kidney - Addison' disease**
 - Addison's disease only in 2 places : Kidney; Gen, Convulsions
- Extr, Hip joint disease = Coxarthriti
- **Gen, G**landers - Diseases of horse
 - ANTHRAX - EXTREMITIES
- Diseases of pancreas : Abdomen. Pancreas
 - Other 2 organs mentioned as rubrics – LIVER, SPLEEN
- Hodgkin's disease : Gen, Induration, glands knotty like ropes
- Menier's disease : Ear, Noise, vertigo with
- Raynaud's disease : Extr, Coldness hand blue with

SENSATION AND COMPLAINTS - TPB

- Arrangement of Rubrics – Alphabetical
- Number of subchapters are as follows:
 - In general
 - Glands
 - Bones
 - Skin
- Allen's edition put the name sensation and complaints. In earlier editions the heading was sensations
- Sensation and complaints in general
- Sensation and complaints of glands
- Sensation and complaints of bones
- Sensation and complaints of skin

- **Subjective symptoms**

- Desire for open air, aversion, intolerance of clothing, inclination to lie down, aversion & desire for motion, restlessness, sensitive to pain, inclination to sit, illusion of touch etc.

- **Complaints (or conditions)**

- Apoplexy, consumption, convulsions, dropsy, emaciation, tendency to take cold, nervous excitement, hemorrhage, frozen limbs, apparent death(= asphyxia), induration, inflammation, paralysis

- **Objective symptoms**

- Blackness externally, carphology (= picking up of bedclothes), clumsiness (being awkward or careless in one's movements) , cracking of joints, cyanosis

- **Locations (generalized)**
 - Symptoms of one side, left side, right side ,crosswise, left upper and right lower and crosswise etc
- **Mental s/m**
 - Carried desire to be
 - Hysteria & Hypochondriasis
 - Looked at, aversion to being
 - Washing dread of
 - Water dread of

- Apoplexy
- Burns (Aggr. Also)
- Carphology
- Carried desires to be
- Chlorosis
- Clothing Intolerance of
- Cold tendency to take
- Consumption(=TB)
- Convulsions
- Cracking of Joints
- Cyanosis
- Dislocations
- Dropsy Ext & Int.
- External Parts, Drugs affecting
- Internal Parts, Drugs affecting
- Faintness
- Reeling
 - Vertigo – Intellect
 - Unconsciousness – Intellect
- Frozen limbs
- Haemorrhage from Internal Parts
- Hysteria
- Immobility of Affected Parts
- Indurations
- Inflammations Externally, internally

- Emaciation
- Obesity
- Labor – like Pains(in SO also)
- Looked at, Aversion To Being
- Motion Aversion, To
- Mucus secretions Increased
- Pain Jumping from Place to Place
- Paralysis – One sided
- Polypus
- Restlessness
- Retraction of Soft Parts
- Scurvy
- Sit Inclination to
- Sprain from lifting
- Ulcerative pain Externally, Internally
- Washing, Dread of
- Water , Dread of
- Whirling

S & C - BBCR

- In alphabetical order
- Kent's Generalities (most rubrics given here)
 - Subjective s/m
 - Conditions
 - Objective s/m
 - Constitution
 - Directions & radiation of pain
 - Latent ds
 - Diagnostic terms
 - Affections of infants
 - Poor reactions to medicine

- Agility
 - ability to move quickly and easily
- Algidity
 - Coldness & chilliness as seen in cholera & other debilitating ds.
- Alternating state
- Alternations & **Suppressions**
- Anxious feeling, **internal anxiety**
- Apoplexy
- **Arthritic pains**
- **Asleep sens in limbs**
- **Asphyxea**
- **Aura auditory**
- Bony people
- Black external parts turn (Gangrene)
- ❖ Burns – Skin, burns
- Cancerous cachexia
- Carphology
- Chronic troubles
- ❖ Carried desire to be - conditions
- Chlorosis
 - ❖ Anaemia : Fever, Circulation
- Constitution
 - Carbo-nitrogenous
 - Dyscratic
 - Hydrogenoid
 - Lithemic, acidosis
 - Neuropathic
 - Oxygenoid
 - Psoric, scrofulo-lymphatic
 - Sycotic, syphilitic

- **Clumsiness, unwieldiness**
 - the quality of being done in a way that lacks skill or finesse.
- Consumption
- Convalescence during
- **Corpulency** = Obesity
- Crepitating, crackling in jts
- **Cretinism**
- Cyanosis
- Development
- Discharge
 - Suppressed or non-appearing
- Dropsy
 - Of skin, **anasarca**
- Dryness of palms & soles
- **Dyscrasia, latent diseases**
- Eclampsia
- Spasm
 - Clonic
 - Children, fits
 - Dentition
 - eclamptic
- Emasciation, atrophy
 - **Spare habit**, thinness
- **Enervation, sickishness, faintness**
- **Fainting, faintness**
- **Falling to ground**
 - **unconsciousness**
- Epilepsy

- **Erethism** = irritability
- Fanned desire to be
- Frost bite = chilblains
- Growth affected
 - Gumma = form of granuloma
 - Rapid too
 - Slow too
- Hard bed sense of
- Increasing gradually
- Hemophilia
- Haemorrhage
- Influenza
- Joints
- Stiffness & want of suppleness in jts
- Muscles
 - Twitching of, **SUBSULTUS**
- Lie down inclined to, **lethargy, listless**
- Looked at, averse to being
- Lump or knot = Lipoma
- Marasmus
- Tetanic

- Infants affections

- Asphyxia
- Dentition
- Excoriations(**intertrigo**)
- Eyes(ophthalmia)
- Fontanelles open
- Head hypertrophy, **hydrocephalus**
- Lameness, infantile paralysis, **MORBUS COXARIUS**
- Walks, learn with difficulty

- Puberty, youth

- CONDITIONS

- Puberty at
- Lying in women(puerperal state)
- Old age, senility

- Medicines, susceptibility to excessive
 - Abuse
 - Wanting
- Reaction want of, medicine to
- Metastasis
- Occupational disorder, cramp
- Opistotonous
- Paralysis
 - Agitans
 - Diphtheritic
- Plague; Polypi
- Torpidity
- Walk
 - Children learn with difficulty
 - Slow in learning to
- Well feeling = denies being sick
- Reeling, staggering, wavering gait
- Paroxysmal or recurrent effects
- r/c symptoms
- Groups, s/m appear in
- Reflexes diminished
- Tendons, injured inflammed
- Plethora, full blooded
- Scrofula
- Syphylis
- Sycosis
- Scurvy, scorbutic s/m
- Sens illusions of
- Running like a mouse(along limbs)
- Side – diagonal; crosswise

Glands

- TPB: S&C GLANDS

- All S & C related to glands
- For locations refer PBO

- Atrophy
- Indurations
- Inflammation
- Injuries
- Swelling – like knotted cords
- Suppuration
- Ulcers – cancerous

- BBCR: S&C GLANDS

- All S & C related to glands

- Flaccid(withered, atrophied)
- Indurations(nodes)
- Swelling – like knotted cords

BONES

• TPB: S&C BONES

- All complaints related to bone, but mostly subjective sens are given
- Healing of Broken Bones slow
- Inflammation
- Swelling
- Caries – of periosteum
- Necrosis
- Injuries
- Softening (curvature)
- Gouty nodes

• BBCR: S&C BONES

- Curvature, curve, def. (RACHITIS)
- Fracture, slow union, slow form of callous
- Ganglion, bursae
- Necrosis, gangrene, **septic osteomyelitis**
- Suppur. (caries, ulceratn)
- **Hollow bones esp.**
- Osteomyelitis
- TB of
