Boger Boenninghausen's Characteristics and Repertory - 1905

- Annotated copy of manuscripts of TPB -> Carroll Dunham -> Dr H N Guernsey
-> Dr J C Guernsey
- Boger's translation of the original German rubrics into English is considered to be more accurate than that of Allen. In addition, there is an **excellent and exhaustive Index** enabling one to readily locate symptoms.

BOGER IN THE PREFACE SAYS:

It gives me great pleasure to be able to present the essentials of the masterpieces Boenninghausen, condensed into one volume, to the profession.

The “THERAPEUTIC POCKET BOOK” is easily the foremost of these.

- Boenninghausen's Characteristics

- This Materia Medica was originally published in 1905 and was reprinted and enlarged with Boger's notes in 1937. It deals with the characteristics of the remedies according to the standard schema of Locations.

- Boger Boenninghausen's Characteristics and Repertory – 1905

- Originally published in 1905, this title was reprinted and enlarged with Boger's notes in 1937.

- 1900 – Systematic Alphabetical Repertory of the Hom. Remedies
 - Translation of Boenninghausen's Antipsorics
- Studies in the Philosophy of Healing
 - More teachings displaying Boger's rare acumen as a successful prescriber.
- Study of Materia Medica and Case Taking
 - 2 essays that display Boger's uncommon knowledge of homeopathic science, that came from deep study and comprehension of its philosophy and materia medica.
- Boger's Diphtheria, The Homoeopathic Therapeutics

- A Synoptic Key of the Materia Medica
 - Contains a short repertory and a summary of 323 remedies, complete with region of affinity, modalities, and specific symptoms, all graded as to degree.
- General Analysis with Card Index
- Samarskite- a Proving
- The Times of the Remedies and Moon Phases – which characterize the Appearance and Aggravation of the Symptoms and their Remedies – 1906
- Editor of Homoeopathic Recorder.

- Changes of Personality & Temperament

- To understand patient as a person

- The Nature & Peculiarities of Disease

- Diagnostic nomenclature remains same; but the expressions patient experiences is grossly different as the man is suffering

- The Seat of the disease

- Sphere of action

- Concomitants

- Represents Constitution (Characteristic); time correlation; prime task

- Cause

- Cause -> Effect -> Location
- Eliciting the cause is challenging; especially emotional

- Modalities

- Aggravation more easier than >

- Time

- Speed of action also determines the evolution of complaints from initiation to development;
- Remedy that we describe also have a different speed of action in evolution of complaint
- So it is not only day & clock timings
