MIND - ABUSIVE

ABUSED; being
(See AILMENTS FROM - abused; after being) ▶

ABUSIVE: (= abusive language) ▶ X ▶ S

Detinis note (1)

▶ One should consider this symptom in conjunction with the heading 'Cursing' in order to distinguish between the two. Both concern verbal attacks on people or things. The abusive person uses rude and insulting words in order to offend others, whereas cursing is the vivid expression of a desire that someone should suffer hurt or harm. It also covers the use of expletives as an expression of surprise or annoyance. In assessing these symptoms, one must bear in mind the patient's education and background.
