Corporate/Commercial Interior Design

In this type of interior design, our interior designers' plan and design spaces in corporate and commercial spaces. It is the branch of interior design that is vast and broad. This branch of interior design covers areas such as banks, schools, a lounge, a bar, a theme park among others.

There are numerous specialization areas that are associated with corporate and commercial interior design. They include designers specializing in entertainment work on movies, television, theatre, clubs, theme parks and arena projects.

In addition, commercial interior design focuses on government projects such as work on schools, fire and police stations, libraries, courts, museums, public transport terminus among other government interior design works. Others are health care design focusing on hospitals, nursing homes, examination rooms and waiting rooms.

Still on this branch of interior design, some interior designers prefer to focus on hospitality and luxury, on bars, restaurants, hotels, country clubs, cruise ships and major conferencing areas. Further, other commercial areas covered by this kind of interior design include office design, retail and store design, shopping malls, boutiques among others.
