## DECORATIVE WALL PAINTS: AFRICA EFFECT

Image 1: ASMARA EFFECT

*By Michael Jumba*

Interior spaces would look odd without the use of colour on the walls. That is why wall paints are a very important element to consider during the Interior Design process. **At Jumbo Crafts Ltd**, we have the right paints to suit every interior space besides satisfying our customer's desires.

One of the decorative wall paints we sell at **Jumbo Crafts Ltd** is the Africa wall paint. This paint theme comes in various colour and textures that are aimed at making your walls look elegant with the magical colours of the continent of Africa.

Africa decorative wall paint is a trowel-based coating paint that will give your wall stunning metallic-like patterns. The paint is applied with a short-hair roller or trowel in two coats over a primer tinted into a matching colour.

After application, it is advisable to protect the painted wall with a clear coat of acrylic transparent protection coat. Check out for the variety of Africa effect paints below.

For more information regarding these paints, kindly contact us.
