Patho: features of CNS and congenital malformations (lec. 1)

Slide 2:

The nature of the lesion may be benign, but its site makes the results dangerous

Slide 23:

In infant (less than 18 month) the sutures still opened... so accumulated fluid makes skull larger

Slide 33:

Why? Near the respiratory center....

Slide 46:

Read about dandy walker malformation:

ممکن سؤال في الامتحان عليها

شوية معلومات من الكتاب
