

MANHEIM - Seller Dashboard Supported Browsers

KBA-02030-F2MXQ1

Question: What are the recommended browsers for supporting Seller Dashboard?

Answer: The recommended browsers for Seller Dashboard are listed below:

- Chrome
- Firefox
- Internet Explorer 10
- Safari 6x and up

There are other supported browsers; however, some features may not be available. The browser that falls in this category is IE 9

Note - The site does not work on IE8 and users will be notified if they try to access the site on IE8. Users should be able to use IE9 currently; however, as Manheim adds features that may use modern technology, we (Manheim) may have some features that are not support on IE9.
