

# The Dicemen Tech Spec

## Total Inputs

- Vocal mics x 3
- Instrument DI x 4
- 240V sockets x 2

Note: Richard's vocal mic will arrive via a vocal effects pedal (cable provided by band) with reverb and EQ on it so the channel should be quite dry on the desk

Note: Richard's Mandolin/Bouzouki input will also go through its own DI box so only needs an XLR cable to the desk
