

G L O R E
WHEN STYLE MEETS YOU

Sahra Cam has been producing tea sets, coffee sets and service group products in rich designs and forms, each more beautiful than the other, since its establishment in 2005. It is specialized in glass, which has been an indispensable part of human life for thousands of years.

Sahra Seramik was established in 2014 and manufactures ceramic dinner sets, breakfast sets and tableware products in various forms and designs in its integrated production facility.

Sahra Cam and **Sahra Seramik** offer their products both to the local Turkish market and abroad markets in many countries under the GLORE brand.

Our glass and ceramic factories have been carrying out all production processes from product design to the final packaging stage in their integrated facilities since the day they were established.

Valuing human resources, supporting personal development, contemporary management approach based on communication, respecting the environment, nature and society are the most important principles of our companies.

Our goal is to protect the high brand value of the **GLORE** brand in Turkey and abroad with its quality and unique designs, and to provide 100% customer satisfaction without sacrificing quality.
