To Whom it may concern

I wish it to be known and understood that following your communication regarding my next dental appointment in which the Dental Surgery insists I wear a mask to attend for treatment.

I wish to inform the surgery that I am “**exempt**” by the government from wearing a mask or shield due to my hidden disabilities, and by refusing me necessary treatment unless I wear a mask/shield is in **direct contravention of the Coronavirus Act 2020** in which the government have supplied me with an exemption card and to which every person it is shown to must adhere to my exemption. By refusing my exemption you are also discriminating against me and my Human Rights (**Article 6.1 UK law and Article 6.1 & Article 14.2(a) UNESCO bioethics human rights 2005 Charter**) and in **contravention of the Equalities Act 2010 – Discrimination & Harassment - Section 13 & 15 -** whereby it is against the law to refuse me necessary medical & dental treatment due to discriminatory behaviour against my disability.

**Please note: That contravention of the Equalities Act 2010 -Discrimination holds a 'personal' fine of up to £9,000 for any person's actions.**

I have sought legal advice and have been informed that no person can refuse me medical treatment based solely on my disability and inability to wear a mask for health reasons and your refusing me treatment in direct contravention of my Human Rights and are liable for prosecution.

I look forward to receiving a new appointment for the procedure to take place without the need of wearing a mask/shield (Shields are for splashback chemicals/liquids – not used in medical procedures). I trust the nurses in question will be dealt with in accordance with the law and my rights.
