Re: Parental Exemption from wearing a Mask due to hidden disabilities - Equality Act 2010 – Discrimination (Section 13 & Section 15)

I understand that I am now required to wear a mask when taking and collecting my child to and from school. I wish to inform you that I hold a **Government Exemption Card in accordance with the 'Coronavirus Act 2020'** this card issued by the Government **guarantees me full exemption from wearing any mask or shield** in accordance with my disability and in conjunction with the **Equality Act 2010 (Section 13 & Section 15)** in which it is illegal to show discrimination or question persons on the particulars of their said disability (Maximum fine is £9,000 Nine thousand pounds) against anyone who suffers from hidden disabilities which prevents them from wearing a mask or shield.

I am unable to wear a mask/splashback shield due to hidden disabilities and by **law this must be accepted** any such refusal to accept the **Government Exemption Card** is breaching my human rights (**UNESCO Bioethics & Human Rights 2005: Article 6.1 UK Law**) by forcing my consent (insisting I wear a mask) i.e. making conditions which affect the health, safety of myself as a parent and endangering the safety of my child in your care if I am refused access to take or collect my child to/from the school. The school have a responsibility in law to safeguard my child whilst in their care & by refusing a parent from collecting a child, means the child is left alone in the school yard this is totally unacceptable. If the school are unable to respect the law & act within the confines of the Coronavirus Act 2020 whereby my exemption to wearing a mask is lawful and in accordance with the Act, then I will be forced to take the matter further and to the Health &

Safety Executive team. I trust the school will not wish this matter to escalate further and will in accordance with the law respect my disability and allow me to take/collect my child unhindered.

Yours faithfully
