

## **CREATING NEW IMAGE FILE USING POWERISO**

### Create New Image File (ISO, BIN / CUE, DAA)

1. Run PowerISO.
2. Click on the "New" button on toolbar or choose the "File > New > Data CD / DVD Image" menu.
3. Click on the "Add" button on toolbar to add files and folders. You can also directly drag files and folders from Windows Explorer to the PowerISO window.
4. Choose the menu "Action > New Folder" to create a new folder.
5. Choose the menu "Action > Change Label" to change the default label.
6. Choose the menu "File > Properties" to set the iso file properties.
7. Click on the "Save" button on toolbar, or choose the "File > Save" menu.
8. To create iso file, save the image file to "Standard ISO Images (\*.iso)" format. You may also save it as BIN / CUE, or DAA format.

Thanks
