Tashkent – 2023

Professional competence is a great asset for the individual! Like our great ancestors, let's cherish every moment, diligently acquire knowledge, and give all our strength for the benefit of world civilization, the development of the Motherland, and the well-being of society!

Rektor's Message

DEAR FRIENDS AND STUDENTS!

Today we live in a world where scientists and people working in the field of education receive more and more support from society, and intellectual assets are valued and recognized above material ones. In all areas, the most respected and highly responsible positions in the public sector are entrusted to young and creative people who are socially and politically active and who put other people's interests above their own. "We will definitely build a new Uzbekistan together with our youth!" said President Shavkat Mirziyoyev, placing great confidence in the youth. At such a time, it is a matter of honor and great responsibility for all of you to acquire knowledge, show initiative and diligence, raise the prestige of our country in the international arena, and actively participate in the development of the country.

Professor
Sh. Mustafakulov
University Rector

WHY US ?

International Nordic University is the only private university in Central Asia that offers higher education in the style of the Nordic countries, especially Finnish.

The university is rightfully the cornerstone of Finnish-Uzbek cooperation in the field of education, the first educational cluster of the Finnish higher education system in Uzbekistan.

The university aims to accelerate the integration of higher education, science, and production by training full-time and part-time highly qualified specialists in the field of modern education in the republic.

WORLD ECONOMY (BY REGIONS AND TYPES OF ACTIVITY)

ECONOMY

The BSS (Economics) degree program requires the successful completion of a total of 210 credit hours of study and 30 credits for internship and final project research. It is carefully designed to provide a strong understanding of modern economic theory, inculcate independent thought about economic policies and problems, develop the capability for quantitative research, and provide descriptive knowledge about the local and global economies.

ECONOMY (BY BRANCHES AND INDUSTRIES)

This bachelor's degree is comprised of Foundation Courses, University Core Courses, Major Compulsory Courses, Major Elective Courses, General Education courses, and Internship & Final project research.

The compulsory and elective General Education courses expose students to a broad range of knowledge and experience outside of the degree focus

The Foundation Courses provide a basic background in Mathematics, Economics and English.

Economics major compulsory courses cover the core knowledge requirements of the bachelor's degree. It provides students with specialized expertise within the degree area. The elective courses are important for the concerned field of study. Internship and Final Project are compulsory requirements for graduation at this University.

The University Core courses can be considered as a part of general education courses. These courses aim to develop breadth in thinking and to give the skills needed to operate in a dynamic and challenging environment.

INTERNSHIP

Internships allow our students to gain valuable applied experience and make professional connections, while also giving employers the opportunity to guide and evaluate talent. The minimum duration of internship is 12 weeks under supervision of an appropriate qualified person.

CAREER PREPARATION & ENRICHMENT WORKSHOPS (NON-CREDIT)

All bachelor's degree students are required to participate in a series of Career Preparation & Enrichment Workshops to prepare themselves for job applications and necessary skills for future career success. The workshops also enable the students to gain exposure to valuable skills that give them selfconfidence and the encouragement to find and cultivate their personal passions.

CAREER PATHS

Employability is an essential part of our economics courses. We make sure our graduates are prepared for a successful career or further, postgraduate study. Throughout the course you'll take a skills and employability module, designed to boost your professional skills.

Our students have gone on to work as:

- economists
- statisticians
- investment analysts
- financial advisers
- accountants
- management consultants
- business analysts
- marketing professionals
