EDUCATIONAL OFFER

Industrial Management
BU BSc (Hons)

Tashkent – 2023

Professional competence is a great asset for the individual! Like our great ancestors, let's cherish every moment, diligently acquire knowledge, and give all our strength for the benefit of world civilization, the development of the Motherland, and the well-being of society!

Rektor's Message

DEAR FRIENDS AND STUDENTS!

Today we live in a world where scientists and people working in the field of education receive more and more support from society, and intellectual assets are valued and recognized above material ones. In all areas, the most respected and highly responsible positions in the public sector are entrusted to young and creative people who are socially and politically active and who put other people's interests above their own. "We will definitely build a new Uzbekistan together with our youth!" said President Shavkat Mirziyoyev, placing great confidence in the youth. At such a time, it is a matter of honor and great responsibility for all of you to acquire knowledge, show initiative and diligence, raise the prestige of our country in the international arena, and actively participate in the development of the country.

Professor
Sh. Mustafakulov
University Rector

WHY US ?

International Nordic University is the only private university in Central Asia that offers higher education in the style of the Nordic countries, especially Finnish.

The university is rightfully the cornerstone of Finnish-Uzbek cooperation in the field of education, the first educational cluster of the Finnish higher education system in Uzbekistan.

The university aims to accelerate the integration of higher education, science, and production by training full-time and part-time highly qualified specialists in the field of modern education in the republic.

MANAGEMENT OF EDUCATIONAL INSTITUTIONS

DO YOU WANT TO BE A FUTURE EDUCATIONAL LEADER
THROUGHOUT THE GLOBE?
THEN YOU SHOULD GO WITH THIS OPTION.

Our university offers a professionally and systematically designed two-year master's program to develop your future globally and locally competitive management skills. You will intensively master the integration of science and practice into the effective management of educational institutions in cooperation with Finland and Uzbekistan, which have created a unique educational platform at the international level. And of course, you will find answers to your questions about the development of your educational institution.

MANAGEMENT OF EDUCATIONAL INSTITUTIONS

MASTER'S PROGRAMS IN MANAGEMENT OF EDUCATIONAL INSTITUTIONS

The Master's Degree in Educational Management is a highly specialized program that develops your expertise in the fundamental principles, theories, and concepts of educational management. This course is for students who have completed their undergraduate studies but wish to expand their knowledge in this area. The program is designed to explain to students the laws, principles and functions of management, reveal the features of modern approaches to management, develop managerial culture and competence.

As well as the readiness to study the state and potential of management systems and the use of integrated methods of strategic and operational analysis, the readiness to research, design, organize and evaluate the management process using innovative management technologies, based on domestic and foreign experience, in management, the educational institution is aimed at a comprehensive education that provides such opportunities as readiness to use technologies for individual and group decision-making, the formation of an educational environment and the use of one's abilities in the implementation of tasks related to innovative educational policy.

The curriculum and subject programs of the master's program in the management of educational institutions, taking into account continuity and consistency with the course of the bachelor's degree in higher education and the master's program, have been developed and the development of the following blocks of compulsory subjects by students is implied. Internships are provided to acquire professional skills. In addition to the required subjects, the curriculum includes subjects offered by staff and selected by students.

Compulsory subjects cost 97.5 ECTS and each costs 7.5 ECTS. These subjects are: Research Methodology, Fundamentals of Educational Management, Professional Ethics, Strategic Management in Education, Pedagogical Diagnostics, Time Management in Education, Innovation Management in Education, Quality Management in Education, Pedagogical Conflictology, Scientific Research and Data Analysis.

Elective subjects are 22.5 ECTS and these subjects also consist of 7.5 ECTS. Also, 7.5 ECTS is allocated for the internship and 15 ECTS for the defense of a master's thesis, and at the end of the course, they gain a maximum of 120 ECTS.

Optional subjects: Interesting mathematics and olympiad tasks, personnel management, PR-management, pedagogical acmeology, fundamentals of leadership in education, practical riskology.

Mastering the curriculum and scientific programs (syllabuses) of the magistracy implies independent knowledge by students of a number of issues and problems related to academic subjects. Practical training in subjects related to the specialization included in the curriculum is carried out at the university and in basic organizations and enterprises.

In order to ensure the integrity of theory and practice, qualified practices and voluntary internships for students in institutions of higher education or universities in Finland, after studying Finnish or English at the required level on the principle of "work and travel", 1 + 1 programs and obtaining a certificate or document of the specified level may pass the.

GRADUATES OF THE SPECIALTY OF MANAGEMENT OF EDUCATIONAL INSTITUTIONS IN THE FOLLOWING AREAS:

- all higher and secondary educational institutions;
- The Academy of Sciences of the Republic of Uzbekistan
- network research institutes and centers;
- scientific and industrial associations;;
- enterprises of different forms of ownership;
- non-governmental and non-profit organizations;
- May participate in national and local government operations.

If you are interested in continuing your education after obtaining your bachelor's degree, you can do so after completing professional training in a master's program in the specialty 70110103 - Management of educational institutions. The Republic of Uzbekistan's legislation allows for the continuation of training in the basic specialties of doctoral studies. It is also feasible to undertake research based on independent inquiry in accordance with the regulations.
