## EDUCATIONAL OFFER

Music Education

Tashkent – 2023

Professional competence is a great asset for the individual! Like our great ancestors, let's cherish every moment, diligently acquire knowledge, and give all our strength for the benefit of world civilization, the development of the Motherland, and the well-being of society!

## Rektor's Message

---

### DEAR FRIENDS AND STUDENTS!

Today we live in a world where scientists and people working in the field of education receive more and more support from society, and intellectual assets are valued and recognized above material ones. In all areas, the most respected and highly responsible positions in the public sector are entrusted to young and creative people who are socially and politically active and who put other people's interests above their own. "We will definitely build a new Uzbekistan together with our youth!" said President Shavkat Mirziyoyev, placing great confidence in the youth. At such a time, it is a matter of honor and great responsibility for all of you to acquire knowledge, show initiative and diligence, raise the prestige of our country in the international arena, and actively participate in the development of the country.

Professor  
**Sh. Mustafakulov**  
University Rector

## WHY US ?

International Nordic University is the only private university in Central Asia that offers higher education in the style of the Nordic countries, especially Finnish.

The university is rightfully the cornerstone of Finnish-Uzbek cooperation in the field of education, the first educational cluster of the Finnish higher education system in Uzbekistan.

The university aims to accelerate the integration of higher education, science, and production by training full-time and part-time highly qualified specialists in the field of modern education in the republic.

## MUSIC EDUCATION

Today, creative specialties are in demand no less than those in technical, legal, and economic areas. That is why many modern young people are increasingly choosing a music education. Music education is in great demand not only in Uzbekistan but also abroad.

The uniqueness of a music teacher is manifested in his love for music, in his desire to give himself and his knowledge to children, in his conviction that without a real musical education it is impossible to become a full-fledged personality, and in his passion for his work. The complexity of this profession is determined by the need for a close connection between the elements included in the concept of "teacher" and "musician". The music teacher carries out educational work and forms the views, beliefs, needs, tastes, and ideals of children. He must be not only educated and well versed in his subject but also a person of high social status.

# MUSIC EDUCATION

Impeccable possession of a musical instrument, voice, hearing, and improvisation largely determine the success of his work. Of no small importance in familiarizing oneself with musical culture is musical and theoretical training. Any competent music teacher should have a good knowledge of musical literature and the history of music and be able to understand the features and patterns of the musical language. It is necessary to understand the significance of musical art in the development of society and its connection with literature and painting.

Comprehensive musical training gives the future teacher, first of all, knowledge of his subject. The accumulated musical experience is combined with knowledge of the foundations of social sciences, subjects of the psychological cycle, and pedagogical cycle to create the necessary conditions for mastering the methodology of music education. Qualified teachers and specialists in the field of music education are ready to transfer this knowledge and skills to future professionals.

Training of bachelors in the field of music education: training of bachelors is carried out in full-time and part-time forms of education. All forms of education are organized on the basis of the ECTS credit module system.

Music education is carried out on the basis of an educational plan and curriculum (syllabus) oriented towards learning based on the credit system of undergraduate education. A person who has fully mastered the theoretical and practical training according to the curriculum, received the specified number of credits, and successfully passed the final certification (defense of the final project) is awarded the qualification (degree) "bachelor" and an official document (diploma) of higher education. Directions of professional activity of bachelors of music education:

- head of the music department of preschool educational organizations;
- music teacher in institutions of secondary special, vocational education;
- music teacher of private educational organizations;
- circle workers who use the means and techniques of musical pedagogical activity;
- in the authorized bodies of the music education system, various business entities, non-state and non-profit, and public organizations, organizations of inclusive preschool education, organizations of preschool education on the basis of state partnership, and other institutions;
- Club leaders in preschools, secondary special schools, and vocational schools;
- local self-government bodies and local spiritual and educational centers;
- The Academy of Sciences of the Republic of Uzbekistan and branch research institutes;
- covers a complex set of issues, such as the media, public administration, and professional activities in other state and non-state institutions.

A graduate of music education with a bachelor's degree can continue his studies in the specialties of the magistracy in the manner prescribed by the legislation of the Republic of Uzbekistan.
