at Nordic International University

## EDUCATIONAL OFFER

Primary Education

Tashkent – 2023

Professional competence is a great asset for the individual! Like our great ancestors, let's cherish every moment, diligently acquire knowledge, and give all our strength for the benefit of world civilization, the development of the Motherland, and the well-being of society!

## Rektor's Message

---

### DEAR FRIENDS AND STUDENTS!

Today we live in a world where scientists and people working in the field of education receive more and more support from society, and intellectual assets are valued and recognized above material ones. In all areas, the most respected and highly responsible positions in the public sector are entrusted to young and creative people who are socially and politically active and who put other people's interests above their own. "We will definitely build a new Uzbekistan together with our youth!" said President Shavkat Mirziyoyev, placing great confidence in the youth. At such a time, it is a matter of honor and great responsibility for all of you to acquire knowledge, show initiative and diligence, raise the prestige of our country in the international arena, and actively participate in the development of the country.

Professor  
**Sh. Mustafakulov**  
University Rector

## WHY US ?

International Nordic University is the only private university in Central Asia that offers higher education in the style of the Nordic countries, especially Finnish.

The university is rightfully the cornerstone of Finnish-Uzbek cooperation in the field of education, the first educational cluster of the Finnish higher education system in Uzbekistan.

The university aims to accelerate the integration of higher education, science, and production by training full-time and part-time highly qualified specialists in the field of modern education in the republic.

## PRIMARY EDUCATION

Our university offers a consistent and professionally designed curriculum to prepare internationally qualified specialists in the field of primary education. You will gain the necessary knowledge in the field of primary education in cooperation with Finland and Uzbekistan, which have created a unique educational platform at the international level, and get acquainted with the practice.

The Bachelor's Degree in Primary Education is a highly specialized 4-year program that trains primary school teachers working in primary schools in our country and abroad. This undergraduate course is intended for graduates of general education schools and secondary specialized educational organizations (professional colleges and academic lyceums) who wish to study in the field of primary education. The program is designed to teach students the knowledge of primary education, the latest pedagogical tools, methods and techniques, the formation of students' pedagogical techniques and teaching skills.

# PRIMARY EDUCATION

Preparation of bachelors in primary education - bachelor's degree is carried out in full-time (correspondence) form of education. Education in the form of education is organized on the basis of the ECTS credit-module system. The educational process is carried out on the basis of 2+2 and 3+1 programs concluded with the Karelian University of Applied Sciences of Finland.

60110500 - Primary education is carried out on the basis of a higher education program that prepares bachelors in the field of education, a person who has fully mastered the theoretical and practical training and successfully passed the final state certification "Bachelor" of the qualification level (level) is issued official state documents on higher education.

**The benefits of studying at Nordic International University for primary education are as follows:**

- Obtaining a high level international education;
- Proficiency in Finnish and English at A2 level;
- Study of existing methods and techniques of teaching in primary education on the basis of foreign experience;
- Participation in international student exchange programs;

**PROFESSIONAL RESPONSIBILITIES OF BACHELORS OF PRIMARY EDUCATION.**

**60110500 - The professional activities of bachelors in the field of primary education include:**

- "Mother tongue", "Reading", "Mathematics", "Technology", "Geography" in the primary grades of general education schools: "Natural Science", "Education", for teaching professional subjects in special, vocational and technical educational institutions in the prescribed manner;
- work as a teacher (organizer) in general education schools, specialized schools, vocational colleges and out-of-school institutions;
- work in the education system in the positions of an office manager, laboratory assistant and equivalent positions;
- work as a methodologist in ministries, its sectoral departments and institutions providing training in relevant educational areas;
- Research activities:
- work as a junior researcher in research organizations;
- work in local governments and local centers of spirituality and education;
- development and implementation of pedagogy and technology of primary education, didactic teaching aids.

After undergoing professional retraining, graduates have the opportunity to teach related (profile) subjects, determined by the competent education authorities, in higher, general education, secondary specialized and vocational educational institutions.

If you are interested in continuing your studies after completing your bachelor's degree, this institution also offers a two-year master's program in elementary education..
