at Nordic International University

## EDUCATIONAL OFFER

Special Pedagogy  
(Logopedics)

Tashkent – 2023

Professional competence is a great asset for the individual! Like our great ancestors, let's cherish every moment, diligently acquire knowledge, and give all our strength for the benefit of world civilization, the development of the Motherland, and the well-being of society!

## Rektor's Message

---

### DEAR FRIENDS AND STUDENTS!

Today we live in a world where scientists and people working in the field of education receive more and more support from society, and intellectual assets are valued and recognized above material ones. In all areas, the most respected and highly responsible positions in the public sector are entrusted to young and creative people who are socially and politically active and who put other people's interests above their own. "We will definitely build a new Uzbekistan together with our youth!" said President Shavkat Mirziyoyev, placing great confidence in the youth. At such a time, it is a matter of honor and great responsibility for all of you to acquire knowledge, show initiative and diligence, raise the prestige of our country in the international arena, and actively participate in the development of the country.

Professor  
**Sh. Mustafakulov**  
University Rector

## WHY US ?

International Nordic University is the only private university in Central Asia that offers higher education in the style of the Nordic countries, especially Finnish.

The university is rightfully the cornerstone of Finnish-Uzbek cooperation in the field of education, the first educational cluster of the Finnish higher education system in Uzbekistan.

The university aims to accelerate the integration of higher education, science, and production by training full-time and part-time highly qualified specialists in the field of modern education in the republic.

## SPECIAL PEDAGOGY

(Logopedics)

60112700 - Special pedagogy (logopedics) is carried out in full-time bachelor's education. Training in the specialty is organized on the basis of a credit-modular system. The standard duration of the undergraduate program is 4 years.

**Logopedics** is a special pedagogical science about speech disorders, ways to prevent them, identify and eliminate them by means of special training and education. Logopedics studies the causes, mechanisms, symptoms, course, structure of speech disorders, and the system of corrective action.

# SPECIAL PEDAGOGY

(Logopedics)

In the course of mastering the undergraduate program, students are given the opportunity to master professional competencies in various areas of logopedics: logopedics technologies for diagnosing and correcting speech disorders in children of early, preschool and school age, adolescents and adults; counseling the family of a child with speech disorders; interaction with various specialists in the process of complex correctional and pedagogical influence on persons with speech disorders; technologies for the prevention of speech disorders.

Directions of logopedics provides multi-level training of speech therapists in full-time and part-time forms, as well as the development, implementation and improvement of software, educational, methodological, informational, technological support for the process of preparing students.

Students undergo various types of teaching practice in educational organizations, psychological and social assistance centers, hearing and speech rehabilitation centers.

The work of a speech therapist requires a lot of patience and goodwill. People with pronunciation defects are often embarrassed by their shortcomings and in dealing with them you need to be as correct as possible, be able to encourage and support them.

For work, it is necessary to understand the mechanisms of voice formation, the pathophysiology of speech. Be able to apply special exercises, logopedics massage etc.

## CAREER

Logopedists work in kindergartens, polyclinics, hospitals, centers for psychological and pedagogical rehabilitation and correction of children with hearing and speech impairments. An option for professionals is to open their own logopedics centre.
