EDUCATIONAL OFFER

World economy and international economic relations

Tashkent – 2023

Professional competence is a great asset for the individual! Like our great ancestors, let's cherish every moment, diligently acquire knowledge, and give all our strength for the benefit of world civilization, the development of the Motherland, and the well-being of society!

Rektor's Message

DEAR FRIENDS AND STUDENTS!

Today we live in a world where scientists and people working in the field of education receive more and more support from society, and intellectual assets are valued and recognized above material ones. In all areas, the most respected and highly responsible positions in the public sector are entrusted to young and creative people who are socially and politically active and who put other people's interests above their own. "We will definitely build a new Uzbekistan together with our youth!" said President Shavkat Mirziyoyev, placing great confidence in the youth. At such a time, it is a matter of honor and great responsibility for all of you to acquire knowledge, show initiative and diligence, raise the prestige of our country in the international arena, and actively participate in the development of the country.

Professor
Sh. Mustafakulov
University Rector

WHY US ?

International Nordic University is the only private university in Central Asia that offers higher education in the style of the Nordic countries, especially Finnish.

The university is rightfully the cornerstone of Finnish-Uzbek cooperation in the field of education, the first educational cluster of the Finnish higher education system in Uzbekistan.

The university aims to accelerate the integration of higher education, science, and production by training full-time and part-time highly qualified specialists in the field of modern education in the republic.
