1996

I got a lot of positive responses from last year's letter so I'm going to give it another try. I apologize in advance to those of you who hate these letters and think they are impersonal, boring or both.

First of all I'd like to wish all of you a very Merry Christmas and a Happy New Year!

1996 did not bring too many changes. We are still living in Georgia. Bob is still self-employed and his business is thriving and growing. He gets to work very close to home except when he is traveling and he likes that very much. He still works hard and long but now he is working for himself which is nice.

Josh graduates December 14th from Kennesaw State University. He has decided not to attend the ceremony but assures me it still counts.

Kristina will graduate in May from Bryant College with a degree in accounting. She plans to attend her graduation so we will be in Rhode Island in May. We are very proud of both of them. Kristina is still dating Dave and we have all enjoyed spending time with both of them when they visited us in Georgia, at the shore house and at my sister Jane's last Christmas.

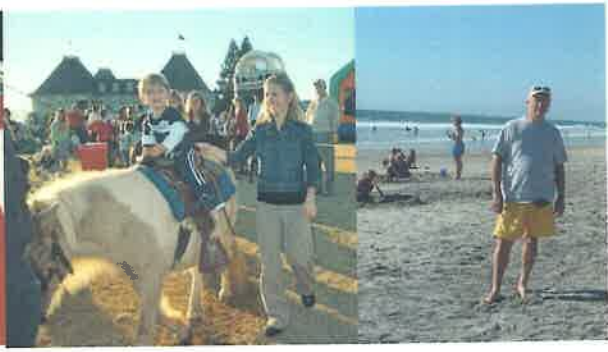

Megan, our baby, is 19 and has been accepted into the school of Journalism at the University of Georgia which she attends and will really be getting into her major this quarter. She does very well in school and keeps her Dad happy by maintaining her 3.0 average and securing her "Hope" scholarship. She has been living in her sorority house this year and loves it. Both girls are members of the same sorority.

Megan and Brian live nearby with 3 year old Dean. Meg went back to school (Masters @ UGA) and is now teaching 8th grade English which she loves. She also is a runner and won a race this year. Brian is still working his Subways (4) as well as doing more daddy duty. Somehow he still manages to keep his golf score in the 80's. Dean started going to nursery school and in my opinion is showing signs of artistic talent. He is a sweet boy and we get to play with him often.

Some milestones in our family... My Aunt Jane turned 85 and my Dad 80 this year. My parents are still able to fly and spent Thanksgiving week with us as well as a couple of weeks in FL in the winter. My niece Ashley graduated from St. Rose college and after touring Europe is managing a Panera Bread in Poughkeepsie. My niece Emily graduated high school with a big party that Kristina, Ally, Andrew and I attended and is a freshman in college in Pennsylvania studying nursing. Please keep my Aunt Kay in your prayers as she is having some health problems. We will be in Goshen Dec 28-30 and hope to see everyone including Aunt Jane who is spending Christmas there.

Wishing you all a healthy and happy holiday!
Love, Bob and Elaine
