

Understanding and Appraising Hierarchy and Levels of Evidence in Evidence Based Practice

Goal of the Program:

Clinical nurses will acquire a basic understanding of the levels of evidence and related statistics they pertain to interpreting, understanding, and finding rigorous evidence for use in practice.

Outcomes:

- Define the Levels/ Hierarchy of Evidence & how the levels/ hierarchy are used to answer clinical questions.
- Demonstrate how to locate research based on level of evidence.
- Explore & discuss which level of evidence is appropriate for what type of research design.

Topics and Speakers:

Levels of Evidence

Peggy Tallier, EdD, MPA, RN
