

Breast Cancer Journey: An Integrative Approach

We're here for you – at every stage

At the Center for Wellness and Integrative Medicine, we believe in an integrative approach to your health. Join us for an educational and experiential conference where our experts will discuss integrating wellness with a breast cancer diagnosis and make suggestions “To Create The New You!”

The night will include:

- A panel of physicians specializing in the latest breast surgical and radiation techniques who will answer frequently asked questions about breast cancer
- A sampling of integrative medicine modalities led by the Center for Wellness and Integrative Medicine
- Video clips of the Center for Wellness instructors demonstrating integrative therapies
- Listening to patient testimonials supporting an integrative medicine approach while the patient focuses on their well-being and their breast cancer journey

Our overall approach at the Center for Wellness is simple: You Are Not Alone!

Join us:

**Thursday,
July 18, 2019**
5:30 pm to 8:30 pm

Northwell Health
Dolan Family Health Center
284 Pulaski Road
