

In the Nursing Website:

- ❖ For security purposes we added a password - magnet2020
 - To access the website from the hospital just go to the Phelps Intranet and click on the heart icon on the right side of the home page.
 - You can also access the website on your home computer as well as your mobile device. Just copy this link and enter the password and you can enjoy the nursing website at your leisure - <https://1065226.site123.me/> You can save to your favorites to save you some steps.
- ❖ A **Phelps Sprouts** section will be added. During nurses week we celebrated our Phelps Sprouts and now we are going to feature a sprout each month.... I am interviewing our **first mystery sprout this month** and should have the video posted in October. I am sure it will be informative, enlightening and funny.
- ❖ Mary McDermott also supported another feature to our website - **Phelps 360°**
 - If you travel around the world and take a picture of yourself with your Phelps attire, badge or beach bag, please send an email with the picture attached to kcalabro@northwell.edu. Please include: Name, location and a little blurb about your travels.

What is a
Phelps
Sprout?

Currently a
nurse at Phelps
Hospital where
their first
healthcare job
was at Phelps
Hospital.

*If you have any other suggestions to enhance our Nursing Website, please contact
Kathy Calabro at 914-366-3508 or kcalabro@northwell.edu*
