New Knowledge, Innovations & Improvements

Collaborative Effort in
our Psychiatric Units,
1 South and BRU,
yield innovative ideas

On April 10, 2020 the APNA sent an email to Doreen Gallagher, MSN, RN-BC, clinical educator, behavioral health that **not one, not two, but all three** of the abstracts that were submitted were approved for **poster presentation** for the APNA 34th Annual Conference, September 30 – October 3 at Disney's Coronado Springs Resort. Due to limited space, only one can be accommodated. We will need to choose between:

- Does Lavender Aromatherapy Improve Patient's Sleep in an Inpatient Psychiatric Unit Compared to Sleep Prior to Admission Without Lavender Aromatherapy?
- *** Implementing Behavioral Health/Psychiatric Clinical Nurse Champions to Reduce Psychiatric Emergencies and Support Medical-Surgical Nurse Clinicians in a Community Hospital Setting
- Reducing Patient Falls in an Adult Psychiatric Unit By Implementing Tele-sitter Remote Video Surveillance Technology: A Pilot Intervention

*** chosen poster presentation
