1. FALLS WITH INJURIES

Inpatient:

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **6/8**

Opportunity: 5 South, 2 Center - Increase utilization of Telesitter Program when appropriate.

1 South **at risk** with 3/8 quarters outperforming the benchmark

Ambulatory:

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **10/10**

2. HOSPITAL ACQUIRED PRESSURE INJURIES STAGE 2 AND ABOVE

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **5/5**

3. CENTRAL LINE BLOOD STREAM INFECTIONS

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **5/5**

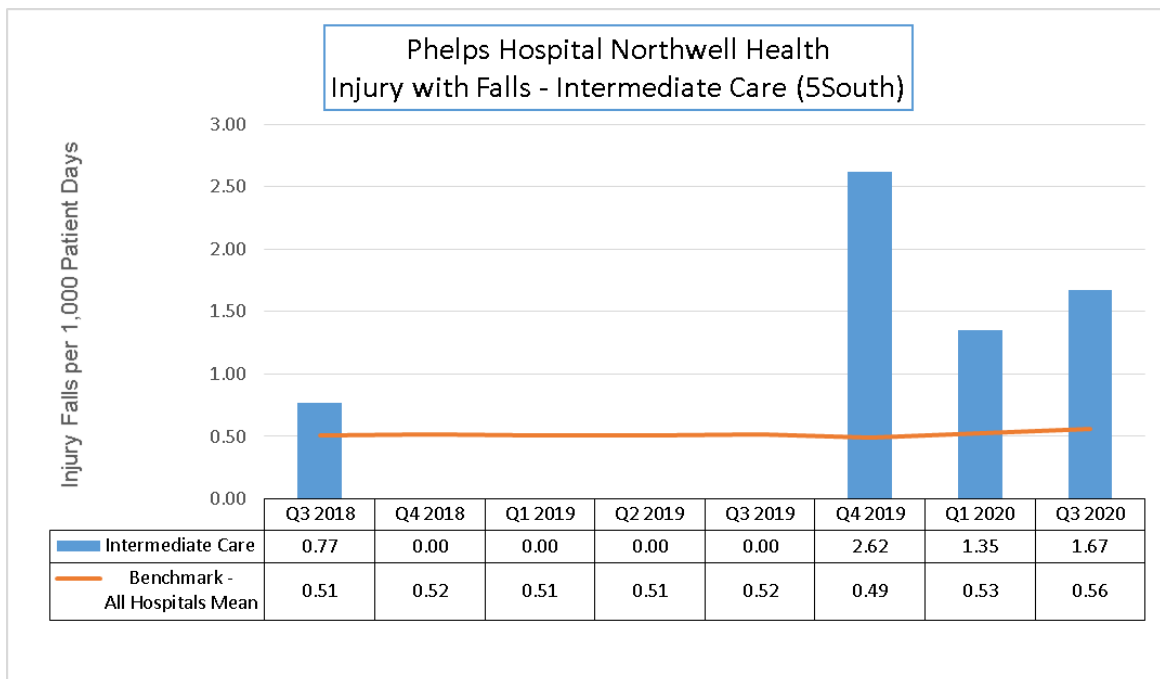

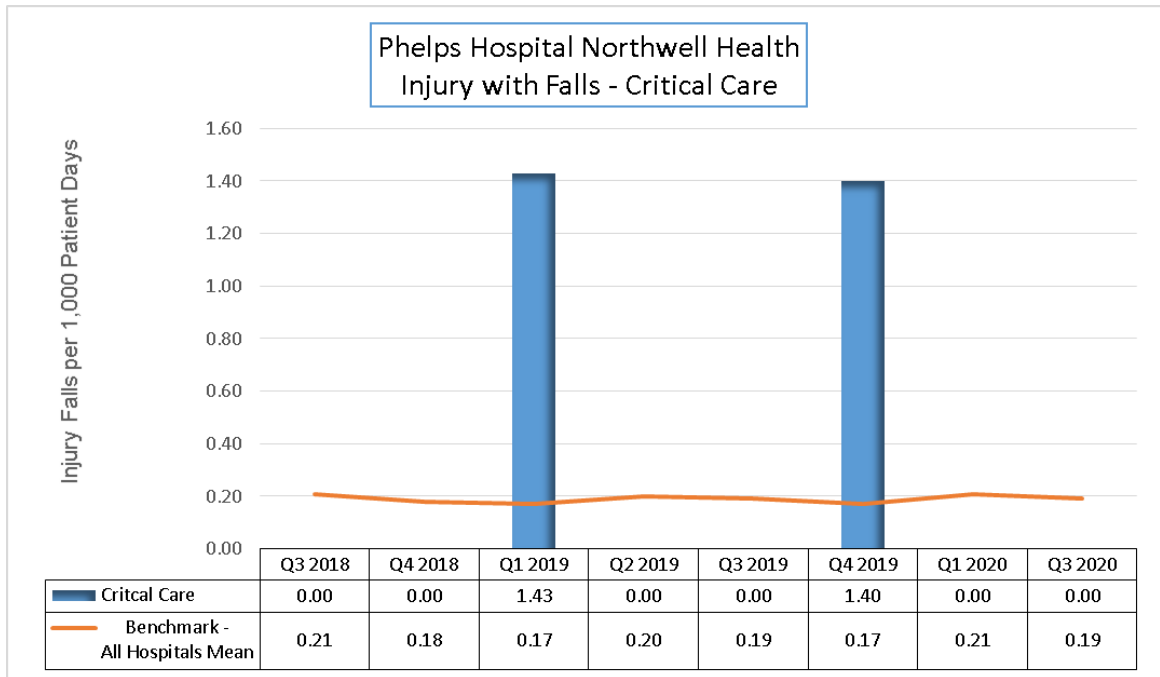

4. CATHETER ASSOCIATED URINARY TRACT INFECTIONS

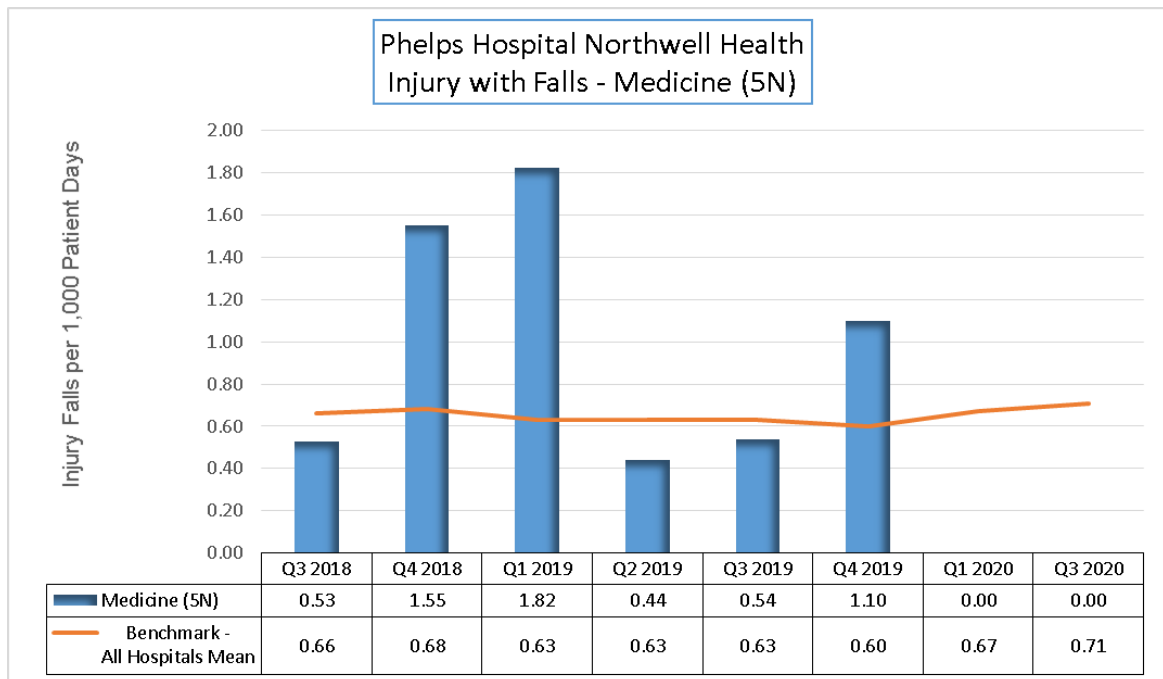

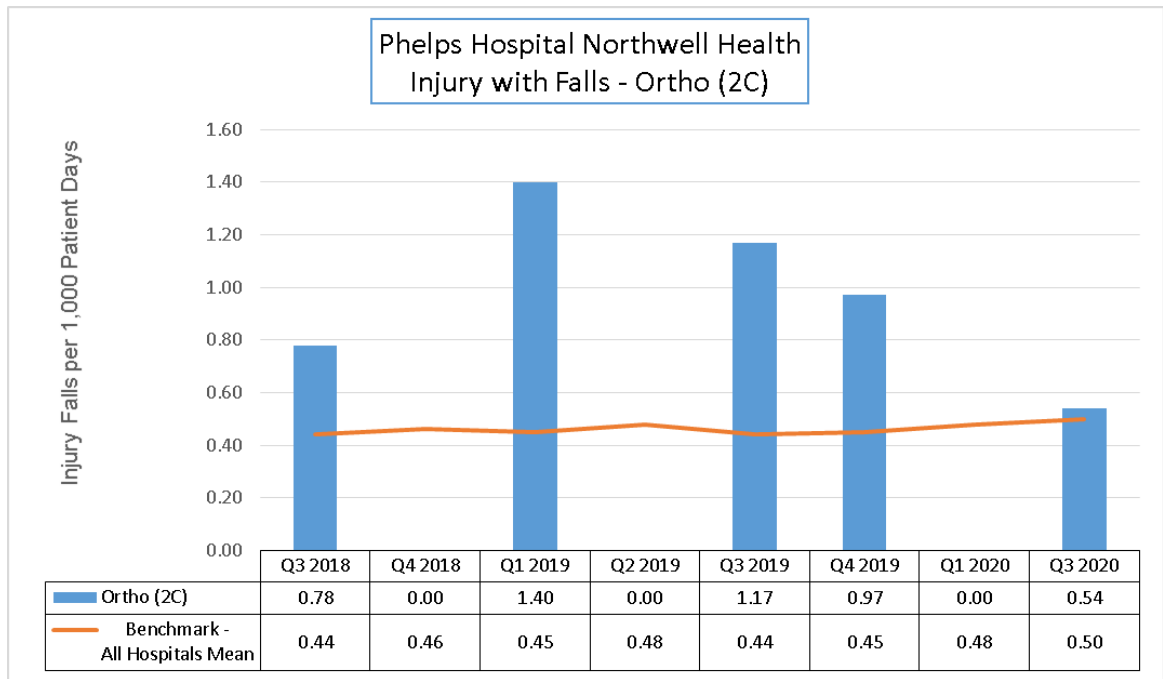

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **5/5**

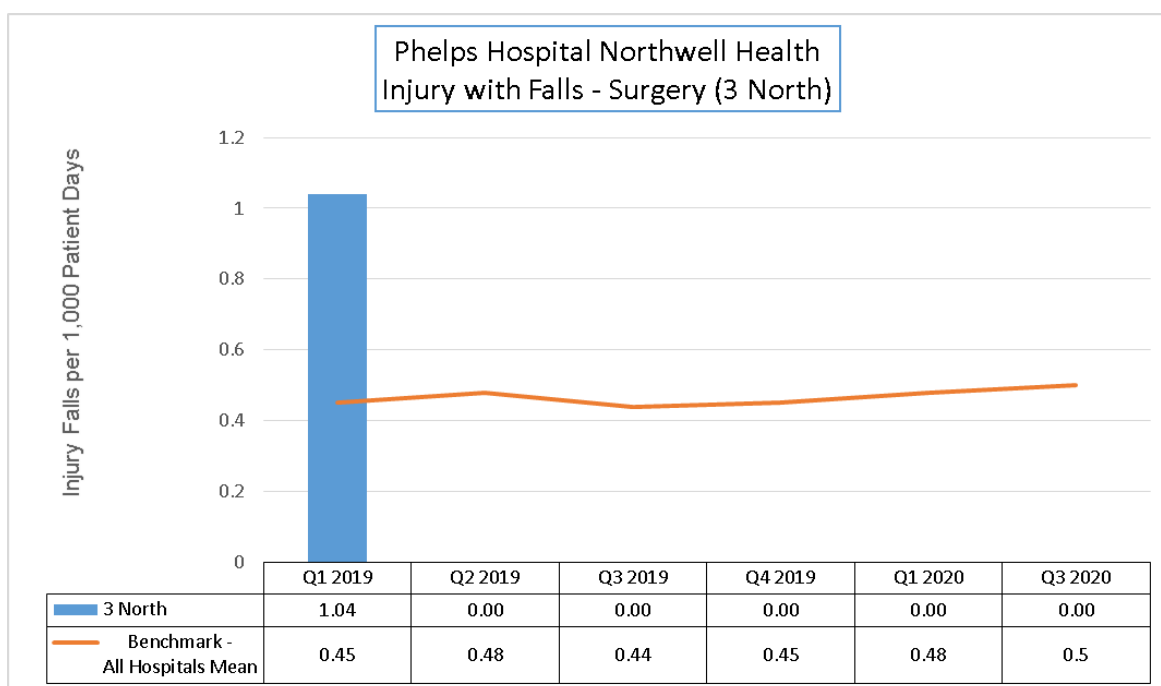

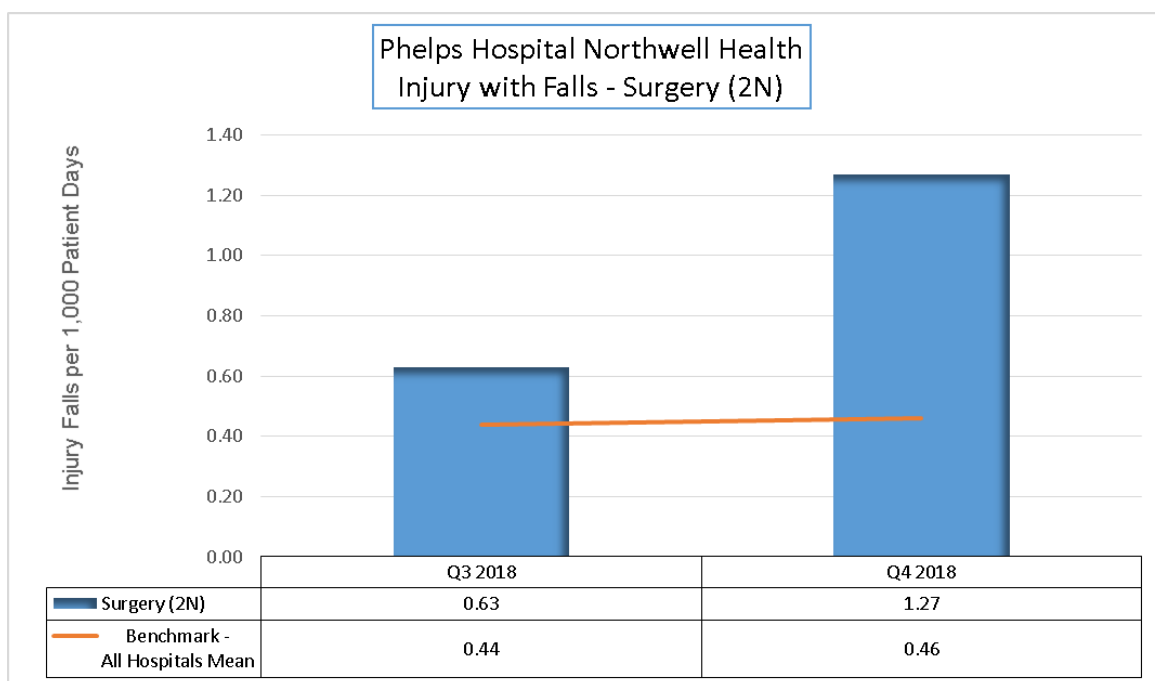

5. PERIOPERATIVE PATIENT BURNS

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **3/3**
