

Dear Emergency Nurse,

We are excited to bring you Setting the Pace 2021. The New York State Emergency Nurses Association (ENA) Annual Conference, **“SETTING THE PACE”** is going virtual in 2021! The event will be held April 22, 2021 from 08:30-16:30. The Pandemic has changed so very many practices and so therefore we also are adapting our conference to meet the needs of Emergency Nurses throughout NYS and surrounding areas. We anticipate a large audience from within NYS and will be offering the virtual conference to nurses across the county. To register go to the New York State Emergency Nurses Association web site click on the Conference tab at the top and there is a drop down then click on General Information scroll down and register.

We believe this different format during these challenging times for nurses will not only allow greater access to this important and relevant content, but also deliver it in a format many will find appealing, convenient and ultimately safer than assembling as a group in a physical location. While we will certainly miss the physical interaction and social aspects of a live event, we believe that it's important to provide this opportunity.

We look forward to this event and hope you will join us on April 22nd.

Sincerely,

Sue Chalupa-Breese, Conference Chairperson

Maryanne Portoro, NYSENA 2021 President

Maria Giganti, NYSENA 2021 President-Elect

Marina Greenan, NYSENA 2021 Treasurer

Eileen Breckenridge, NYSENA 2021 Secretary

Mary Ann Teeter, NYSENA 2021 Immediate Past President

For questions contact Maryanne Portoro, Emergency Department.
