1. FALLS WITH INJURIES

Inpatient:

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **6/8**

Opportunity:

Unit	Action Plan	Scenario's
5 South	<ul style="list-style-type: none"> - Increase utilization of Telesitter Program when appropriate. - Enhanced supervision - Hourly rounding - Early interventions - Pt. education 	Will need to wait 5 quarters before we can potentially meet the magnet requirement.
2 Center	Received new beds with built in alarms in 4Q 2020. For 2021: <ul style="list-style-type: none"> - Adopting the Northwell Fall Policy - Installing brackets for telesitter monitors 	Will need to wait 3 quarters before we can potentially meet the magnet requirement.

1 South and 2 South at risk with 5/8 quarters outperforming the benchmark

Units that meet the Magnet requirement: ICU, 5 North, 4 South, 3 North, 2 South and 1 South

Will add 2 North with 2nd q data

Ambulatory:

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **10/10**

2. HOSPITAL ACQUIRED PRESSURE INJURIES STAGE 2 AND ABOVE

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **5/5**

3. CENTRAL LINE BLOOD STREAM INFECTIONS

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **5/5**

4. CATHETER ASSOCIATED URINARY TRACT INFECTIONS

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **4/5**

Opportunity:

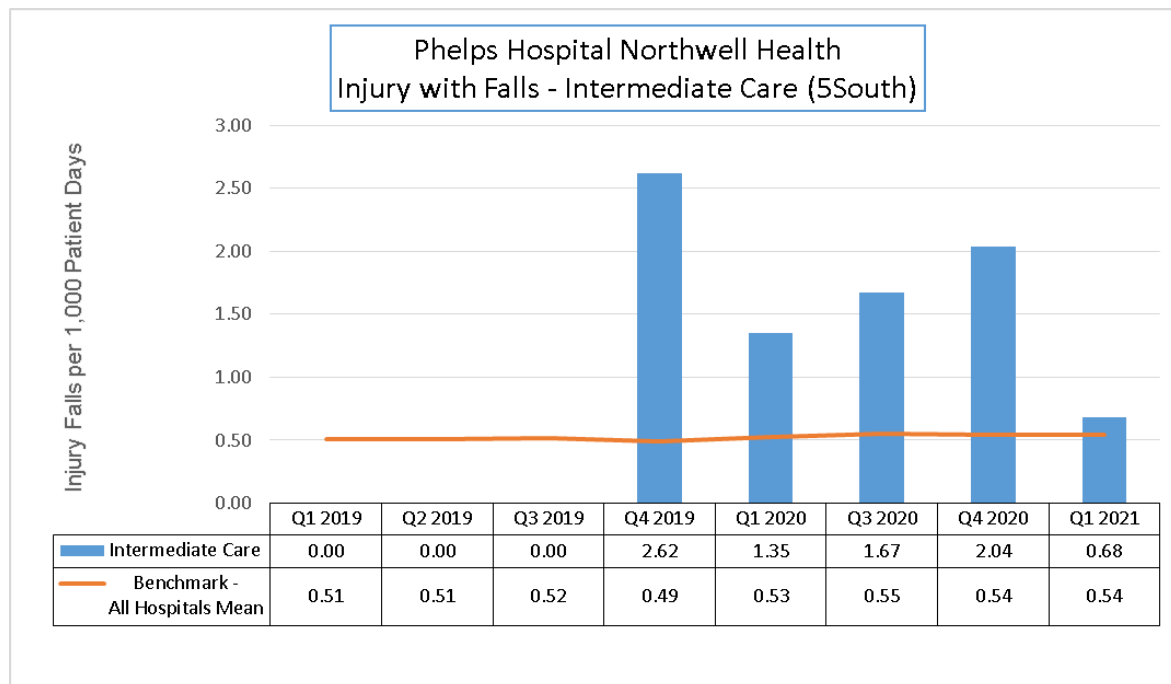

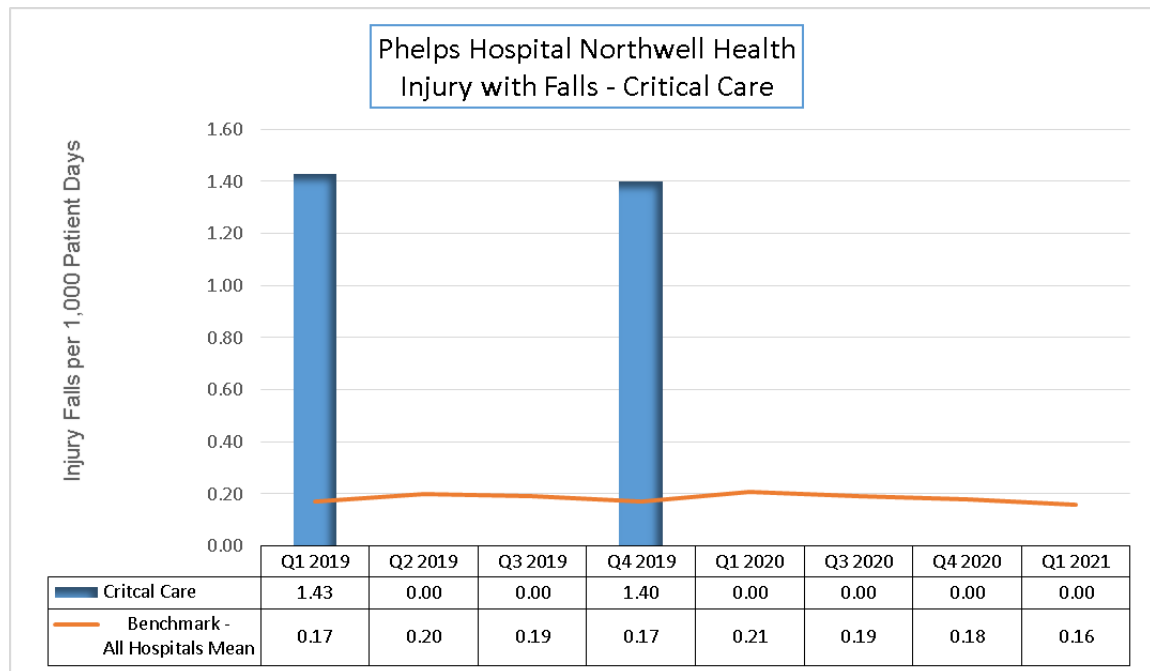

Unit	Action Plan	Scenario's
ICU	<ul style="list-style-type: none">- Daily assessment of need for the line.- Back to Basics- RCAs- Interdisciplinary collaboration - with infection control and physicians.	Will need to wait 4 quarters before we can potentially meet the magnet requirement.

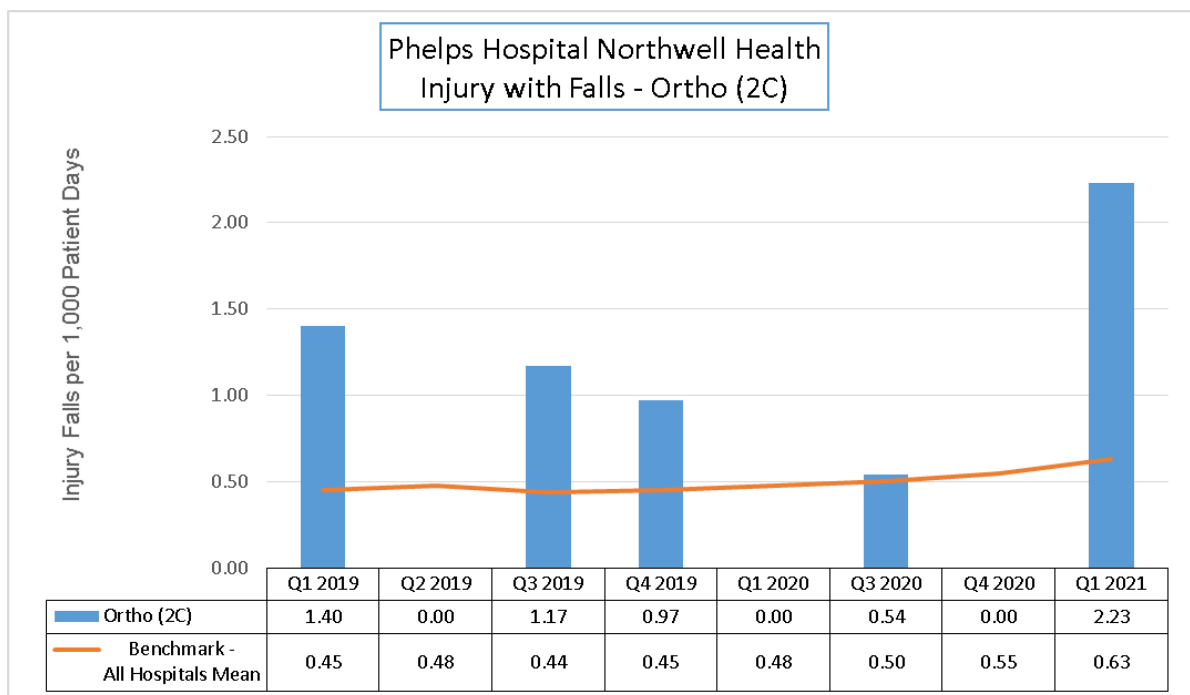

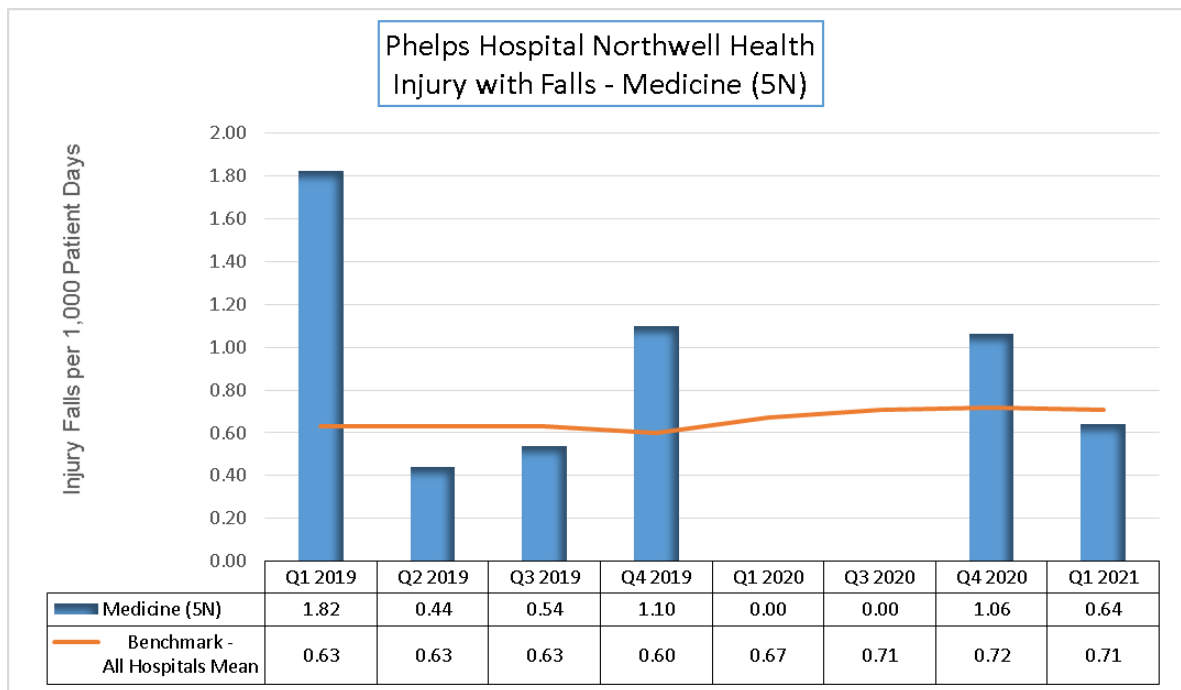

5. PERIOPERATIVE PATIENT BURNS

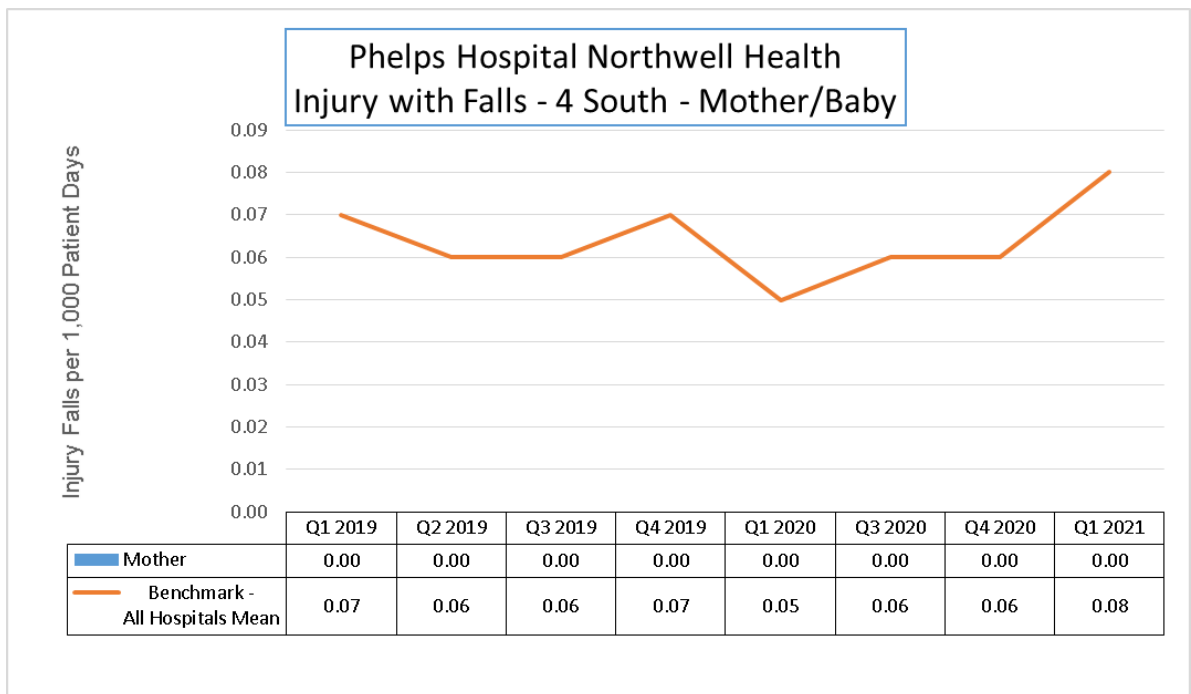

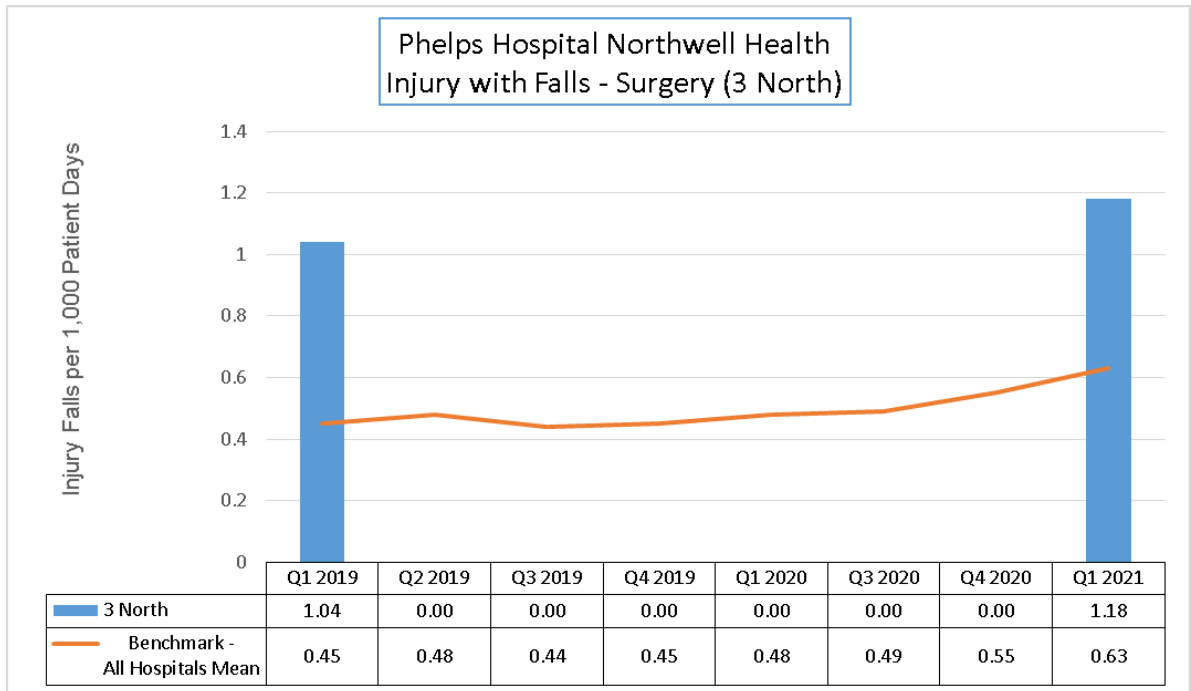

- ☒ Majority of the units outperform the benchmark (all hospitals mean) the majority of the time. **3/3**

OR - 1st Q '21 first incident since submitting data to NDNQI (3Q '2018)
