Navigation of Northwell’s e-Medical Library (EMIL), Literature searches and more! Janice Lester, MLS Education and Reference Librarian, Long Island Jewish Medical Center	Janice Lester presented a quick tour of the library and highlighted key concepts: -Value of systematic reviews - Forming a PICO(T) (Population/Problem, Intervention, Comparison, Outcome (T) Time) question - Rating studies using the Hierarchy of evidence (pyramid) and Search terms.	All appreciated the clear and concise presentation by Janice. While Google scholar is often used, all were reminded that it is not always “peer reviewed”. In comparison, PubMed is a wonderful database to use.	Janice will forward Powerpoint for our future use. Once we formulate PICO questions, we can always email Janice Lester to help with literature searches.
NP Students	Dorit asked if RNs employed at Phelps, who are NP students could attend this council	While some were concerned about the topic and being mindful of patient information, all agreed that it would be a nice way to introduce future NPs to this role. Jen Laffey, RN was in agreement.	We will extend invitations to NP Students to join our next meeting.

Anna explained that her team primarily offers group therapy (combination of medication and group therapy). Other NPs were also interested in this information.
