## NORTHWELL IMMERSION IN CLINICAL EMPATHY & REFLECTION

This study explores the perspective of our patients through the experience of spending a night in the hospital, in order to enhance humanistic care and empathic connection.

The experience incorporates several key elements of a typical overnight adult inpatient stay. As part of the study, you will be interviewed

so you can share insights into your experience.

Phelps-Northwell Family Medicine Residency Program faculty physicians, hospitalists, administrators, staff nurses, post-graduate trainees and medical students are currently eligible for participation on a voluntary basis.

### ENROLLMENT

**August 1, 2021 - February 1, 2022**

**Feinstein Institute for Medical Research**  
Northwell Health<sup>SM</sup>
