mailed-by: townofclay.org

Mr. Parisi,

The work session originally for the 24th has been postponed and I have not been given the new time and date as of yet.

To answer your question, a work session is for public viewing with no input or comment. Those opportunities are always afforded during the Public hearings. Typically within a work session there are many issues in which the Supervisor goes through.

Councilor <redacted>,

Thank you very much for your email. Just to confirm, the meeting is Saturday 24 MAR 2018 at 0930am and open to the public for viewing, correct?

I assume this is not however a forum for public comment so I do not need to be prepared to speak. Is that also correct?

Thank you again.

Tom
